## REPORT ON REVIEW OF INTERIM CONDENSED CONSOLIDATED FINANCIAL INFORMATION TO THE BOARD OF DIRECTORS OF NATIONAL BANK OF KUWAIT S.A.K.P.

### Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of National Bank of Kuwait S.A.K.P. (the "Bank") and its subsidiaries (collectively the "Group") as at 30 June 2018, and the related interim condensed consolidated statement of income and the interim condensed consolidated statement of comprehensive income for the three month and six month periods then ended, and the interim condensed consolidated statement of changes in equity and the interim condensed consolidated statement of cash flows for the six months period then ended. The management of the Bank is responsible for the preparation and presentation of this interim condensed consolidated financial information in accordance with the basis of presentation set out in Note 2. Our responsibility is to express a conclusion on this interim condensed consolidated financial information based on our review.

### Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial information is not prepared, in all material respects, in accordance with the basis of presentation set out in Note 2.

### Report on Other Legal and Regulatory Requirements

Furthermore, based on our review, the interim condensed consolidated financial information is in agreement with the books of account of the Bank. We further report that, to the best of our knowledge and belief, we have not become aware of any violations of the Companies Law No. 1 of 2016, as amended, and its executive regulation, as amended, or the Bank's Articles of Association and Memorandum of Incorporation, as amended, during the six months period ended 30 June 2018 that might have had a material effect on the business of the Bank or on its financial position.

We further report that, during the course of our review, to the best of our knowledge and belief, we have not become aware of any violations of the provisions of Law No. 32 of 1968, as amended, concerning currency, the Central Bank of Kuwait and the organization of banking business, and its related regulations, during the six months period ended 30 June 2018 that might have had a material effect on the business of the Bank or on its financial position.

## NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL INFORMATION

30 June 2018 (Unaudited)

### 1 Incorporation and registration

The interim condensed consolidated financial information of National Bank of Kuwait S.A.K.P. (the "Bank") and its subsidiaries (collectively the "Group") for the six months period ended 30 June 2018 were authorised for issue in accordance with a resolution of the directors on 8 July 2018. The Bank is a public shareholding company incorporated in the State of Kuwait in 1952 and is registered as a bank (commercial registration number – 8490) with the Central Bank of Kuwait. The Bank's registered office is at Abdullah Al Ahmed Street, P.O. Box 95, Safat 13001, Kuwait.

### 2 Accounting policies

### Basis of preparation

The interim condensed consolidated financial information of the Group has been prepared in accordance with International Accounting Standard (IAS) 34, 'Interim Financial Reporting'. The accounting policies used in the preparation of these interim condensed consolidated financial information are consistent with those used in the preparation of the annual consolidated financial statements for the year ended 31 December 2017 except for the changes described below arising from the partial adoption of IFRS 9 'Financial Instruments'effective from 1 January 2018.

The annual consolidated financial statements for the year ended 31 December 2017 were prepared in accordance with the regulations of the State of Kuwait for financial services institutions regulated by the Central Bank of Kuwait. These regulations require adoption of all International Financial Reporting Standards (IFRS) except for the requirement of IAS 39, 'Financial Instruments: Recognition and Measurement', for collective impairment provision, which has been replaced by the Central Bank of Kuwait's requirement for a minimum general provision made on all applicable credit facilities (net of certain categories of collateral) that are not specifically provided for.

The interim condensed consolidated financial information does not contain all information and disclosures required for the annual consolidated financial statements prepared in accordance with International Financial Reporting Standards, and should be read in conjunction with the Group's annual consolidated financial statements as at 31 December 2017. Further, results for interim periods are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2018.

### Changes in accounting policies

### Adoption of IFRS 9 'Financial Instruments'

The Group has adopted IFRS 9 Financial Instruments effective from 1 January 2018 with the exception of requirements of the expected credit losses (ECL) on credit facilities which have been replaced by the provisioning requirements of Central Bank of Kuwait. IFRS 9 sets out the requirements for recognising and measuring financial assets and financial liabilities, impairment of financial assets and hedge accounting. This standard replaces IAS 39 Financial Instruments:Recognition and Measurement.

The Group has not restated comparative information for 2017 as permitted by the transitional provisions of the standard. Therefore the information presented for 2017 does not reflect the requirements of IFRS 9 and is not comparable to the information presented for 2018. Differences in the carrying amount of financial assets resulting from the adoption of IFRS 9 are recognised in retained earnings and reserves as at 1 January 2018 and are disclosed in Note 9.

The key changes to the Group's accounting policies resulting from the adoption of IFRS 9 are summarised below:

Classification and Measurement of Financial assets

The Group determines the classification of financial assets based on the business model it uses to manage the financial assets and the contractual cashflow characteristics of the financial assets.

# NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL INFORMATION

30 June 2018 (Unaudited)

### 2 Accounting policies (continued)

Business model assessment

The Group determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective. The Group's business model is not assessed on an instrument by instrument basis but at a higher level of aggregated portfolios and is based on a number of observable factors. The information considered includes:

- The stated policies and objectives for the portfolio and the operation of those policies in practice
- The risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- The frequency, volume and timing of sales in prior periods, the reasons for such sales and its expectations about future sales activity.

The business model assessment is based on reasonably expected scenarios without taking 'worst case' or 'stress case' scenarios into account. If cash flows after initial recognition are realised in a way that is different from the Group's original expectations, the Group does not change the classification of the remaining financial assets held in that business model, but incorporates such information when assessing newly originated or newly purchased financial assets going forward.

Assessment of whether contractual cash flows are solely payments of principal and interest (SPPI test)

The Group assesses the contractual terms of financial assets to identify whether they meet the SPPI test. 'Principal' for the purpose of this test is defined as the fair value of the financial asset at initial recognition and may change over the life of the financial asset. Interest is defined as consideration for time value of money and for the credit risk associated with the principal and for other basic lending risks and costs as well as a profit margin. In assessing whether the contractual cash flows are solely payments of principal and interest, the Group considers whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. The Group considers:

- Contingent events that would change the amount and timing of cash flows;
- Leverage features;
- Prepayment and extension terms;
- Terms that limit the Group's claim to cash flows from specified assets (e.g. non-recourse asset arrangements); and
- Features that modify consideration of the time value of money e.g. periodical reset of interest rates.

Contractual terms that introduce a more than de minimis exposure to risks or volatility in the contractual cashflows that are unrelated to a basic lending arrangement do not give rise to contractual cashflows that are solely payment of principal and interest. In such cases, the financial asset is measured at fair value through profit or loss.

The Group classifies its financial assets upon initial recognition into the following categories :

- Financial assets carried at amortised cost
- Financial assets carried at fair value through other comprehensive income (FVOCI)
- Financial assets carried at fair value through profit or loss (FVTPL)

Financial assets carried at Amortised cost:

A financial asset is carried at amortised cost if it meets both of the following conditions:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise, on specified dates, to cash flows that are solely payments of principal and interest on the principal amount outstanding

Financial assets carried at amortised cost are subsequently measured at amortised cost using the effective interest method. Interest income, foreign exchange gains and losses and impairment are recognised in the consolidated statement of income. Any gain or loss on derecognition is recognised in the consolidated statement of income.

## NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL INFORMATION

30 June 2018 (Unaudited)

### 2 Accounting policies (continued)

Financial assets carried at fair value through other comprehensive income (FVOCI):

### (i) Debt Securities at FVOCI

A debt investment is carried at FVOCI if it meets both of the following conditions:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding

Debt Securities at FVOCI are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment losses are recognised in the consolidated statement of income. Fair value changes which are not part of an effective hedging relationship are recognised in other comprehensive income and presented in the cumulative changes in fair values as part of equity until the asset is derecognised or reclassified. When the financial asset is derecognised, the cumulative gain or loss previously recognised in other comprehensive income is reclassified from equity to the consolidated statement of income.

### (ii) Equity investments at FVOCI

Upon initial recognition, the Group makes an irrevocable election to classify some of its equity investments as equity investments at FVOCI if they meet the definition of Equity under IAS 32 Financial Instruments: Presentation and are not held for trading .Such classification is determined on an instrument by instrument basis.

Equity investments at FVOCI are subsequently measured at fair value. Changes in fair values including foreign exchange component are recognised in other comprehensive income and presented in the cumulative changes in fair values as part of equity. Cumulative gains and losses previously recognised in other comprehensive income are transferred to retained earnings on derecognition and are not recognised in the consolidated statement of income. Dividend income on equity investments at FVOCI are recognised in the consolidated statement of income unless they clearly represent a recovery of part of the cost of the investment in which case they are recognised in other comprehensive income. Equity investments at FVOCI are not subject to impairment assessment.

Financial assets carried at fair value through profit or loss:

Financial assets in this category are those assets which have been either designated by management upon initial recognition or are mandatorily required to be measured at fair value under IFRS 9. Management designates an instrument at FVTPL that otherwise meet the requirements to be measured at amortised cost or at FVOCI only if it eliminates, or significantly reduces, an accounting mismatch that would otherwise arise. Financial assets with contractual cashflows not representing solely payment of principal and interest are mandatorily required to be measured at FVTPL.

Financial assets at FVTPL are subsequently measured at fair value. Changes in fair value are recognised in the consolidated statement of income. Interest income is recognised using the effective interest method. Dividend income from equity investments measured at FVTPL is recognised in the consolidated statement of income when the right to the payment has been established.

### Reclassification of financial assets

The Group does not reclassify its financial assets—subsequent to their initial recognition other than in the exceptional circumstances in which the Group acquires, disposes of, or terminates a business line.

### NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL

### INFORMATION

30 June 2018 (Unaudited)

### 2 Accounting policies (continued)

### Impairment of financial assets

The Group recognises Expected Credit Losses (ECL) for debt instruments (other than loans, advances and Islamic financing to customers) measured at amortised cost or FVOCI. The Group applies a three stage approach to measure the expected credit loss as follows:

### Stage 1:12-month ECL

The Group measures loss allowances at an amount equal to 12-month ECL on financial assets where there has not been significant increase in credit risk since their initial recognition or on exposures that are determined to have a low credit risk at the reporting date. The Group considers a financial asset to have low credit risk when its credit risk rating is equivalent to the globally understood definition of 'investment grade'.

### Stage 2: Lifetime ECL - not credit impaired

The Group measures loss allowances at an amount equal to lifetime ECL on financial assets where there has been a significant increase in credit risk since initial recognition but are not credit impaired.

### Stage 3: Lifetime ECL - credit impaired

The Group measures loss allowances at an amount equal to lifetime ECL on financial assets that are determined to be credit impaired based on objective evidence of impairment.

Life time ECL is ECL that result from all possible default events over the expected life of a financial instrument. The 12 month ECL is the portion of life time expected credit loss that result from default events that are possible within the 12 months after the reporting date. Both life time ECLs and 12 month ECLs are calculated on either an individual basis or a collective basis depending on the nature of the underlying portfolio of financial instruments.

### Determining the stage of impairment

At each reporting date, the Group assesses whether a financial asset or group of financial assets is credit impaired. The Group considers a financial asset to be credit impaired when one or more events that have a detrimental impact on the estimated future cashflows of the financial asset have occurred or when contractual payments are 90 days past due.

At each reporting date, the Group also assesses whether there has been significant increase in credit risk since initial recognition by comparing the risk of default occurring over the remaining expected life from the reporting date with the risk of default at the date of initial recognition. The quantitative criteria used to determine a significant increase in credit risk is a series of relative and absolute thresholds. All financial assets that are 30 days past due are deemed to have significant increase in credit risk since initial recognition and migrated to stage 2 even if other criteria do not indicate a significant increase in credit risk.

### Measurement of ECLs

ECLs are probability weighted estimates of credit losses and are measured as the present value of all cash shortfalls discounted at the effective interest rate of the financial instrument. Cash shortfall represent the difference between cashflows due to the Group in accordance with the contract and the cashflows that the Group expects to receive. The key elements in the measurement of ECL include probability of default (PD), loss given default (LGD) and exposure at default (EAD). The Group estimates these elements using appropriate credit risk models taking into consideration the internal and external credit ratings of the assets, nature and value of collaterals, forward looking macro economic scenarios etc.

### Incorporation of forward looking information

The Group considers key economic variables that are expected to have an impact on the credit risk and the ECL in order to incorporate forward looking information into the ECL models. These primarily reflect reasonable and supportable forecasts of the future macro-economic conditions. The consideration of such factors increases the degree of judgment in determination of ECL. The management reviews the methodologies and assumptions including any forecasts of future economic conditions on regular basis.

# NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL INFORMATION

30 June 2018 (Unaudited)

### 2 Accounting policies (continued)

Presentation of allowance for ECL in the statement of financial position

Loss allowances for ECL are presented as a deduction from the the gross carrying amount of the financial assets for financial assets carried at amortised cost. In the case of debt instruments measured at FVOCI, the Group recognises the ECL charge in the consolidated statement of income and a corresponding amount is recognised in other comprehensive income with no reduction in the carrying amount of the financial asset in the consolidated statement of financial position.

### Impairment of credit facilities

The Group recognises provision charge for credit facilities in accordance with the existing accounting policy for impairment of financial assets carried at amortised cost as disclosed in the annual consolidated financial statements for the year ended 31 December 2017. This complies in all material respects with the specific and general provision requirements of the Central Bank of Kuwait.

### Hedge accounting

The general hedge accounting requirements of IFRS 9 aim to simplify hedge accounting, creating a stronger link with risk management strategy and permitting hedge accounting to be applied to a greater variety of hedging instruments and risks. The adoption of general hedge accounting requirements of IFRS 9 does not result in any change in accounting policies of the Group and does not have any material effect on the Group's consolidated financial statements.

Changes and implications resulting from the adoption of IFRS 9 are explained in Note 9.

### Adoption of IFRS 15 'Revenue from Contracts with customers'

The Group has adopted IFRS 15 Revenue from contracts with customers effective from 1 January 2018. This standard supersedes IAS 11 Construction Contracts and IAS 18 Revenue along with related IFRIC 13, IFRIC 15, IFRIC 18 and SIC 31. This standard removes inconsistencies and weaknesses in previous revenue recognition requirements, provides a more robust framework for addressing revenue issues and improves comparability of revenue recognition practices across entities, industries, jurisdictions and capital markets. The adoption of this standard did not result in any change in accounting policies of the Group and did not have any material effect on the Group's consolidated financial statements.

### 5 Earnings per share

Basic earnings per share is calculated by dividing the profit for the period attributable to shareholders of the Bank (adjusted for interest and profit paid on Perpetual Tier 1 Capital Securities) by the weighted average number of shares outstanding during the period net of treasury shares. There are no dilutive potential shares that are convertible into shares.

Earnings per share calculations for the period ended 30 June 2017 have been adjusted to take account of the bonus shares issued in 2018.

### 6 Shareholders' equity

a) The authorised share capital of the Bank comprises 7,500,000,000 shares (31 December 2017: 6,000,000,000 shares and 30 June 2017: 6,000,000,000 shares) of KD 0.100 each. The increase in the authorised share capital was approved by the Extraordinary General Assembly meeting of the shareholders held on 10 March 2018. The issued and fully paid up share capital of the Bank comprises 6,213,319,893 shares (31 December 2017: 5,917,447,518 shares and 30 June 2017: 5,917,447,518 shares) of KD 0.100 each.

### b) Treasury shares

		Audited	
	30 June 2018	31 December 2017	30 June 2017

Market value of treasury shares (KD thousand)	66,900	73,542	68,188
Weighted average market value per treasury share (fils)	749	718	698

### c) Dividend and bonus shares

The Annual General Assembly meeting of the shareholders held on 10 March 2018 approved 5% bonus shares (2017: 5%) and a cash dividend of 30 fils per share (2017: 30 fils per share) for the year ended 31 December 2017. The cash dividend was paid subsequently and the bonus shares increased the number of issued and fully paid up shares by 295,872,375 (2017: 281,783,215) and share capital by KD 29,588 thousand (2017: KD 28,178 thousand).

### 7 Segmental analysis

The Group organises and manages its operations by geographic territory in the first instance, primarily Domestic and International. Within its domestic operations, the Group segments its business into Consumer and Private Banking, Corporate Banking, Investment Banking and Asset Management, Islamic Banking and Group Centre. All operations outside Kuwait are classified as International. Management treats the operations of these segments separately for the purposes of decision making, resource allocation and performance assessment.

### Consumer and Private Banking

Consumer Banking provides a diversified range of products and services to individuals. The range includes consumer loans, credit cards, deposits, foreign exchange and other branch related services. Private Banking provides a comprehensive range of customised and innovative banking services to high net worth individuals and to institutional clients.

### Corporate Banking

Corporate Banking provides a comprehensive product and service offering to business and corporate customers, including lending, deposits, trade finance, foreign exchange and advisory services.

### **Investment Banking and Asset Management**

Investment Banking provides a full range of capital market advisory and execution services. The activities of Asset Management include wealth management, asset management, custody, brokerage and research.

### Islamic Banking

Islamic banking represents the financial results of Boubyan Bank K.S.C.P., the Islamic banking subsidiary of the Group.

### **Group Centre**

Group Centre includes treasury, investments, and other defined Group activities. Treasury provides a comprehensive range of treasury services and products to its clients, and is also responsible for the Bank's liquidity and market risk management. Group Centre includes any residual in respect of transfer pricing and inter segment allocations.

### International

International includes all branches, subsidiaries and associates outside Kuwait.

The following table presents net operating income, profit for the period, total assets and total liabilities information in respect of the Group's business segments:

	4,510,283	4,228,662	4,138,767

Irrevocable commitments to extend credit amount to KD 704,047 thousand (31 December 2017: KD 713,129 thousand, 30 June 2017: KD 659,633 thousand). This includes commitments to extend credit which are irrevocable over the life of the facility or are revocable only in response to a material adverse change.

In the normal course of business, the Group has exposure to various indirect credit commitments which, though not reflected in the interim condensed consolidated statement of financial position, are subject to normal credit standards, financial controls and monitoring procedures.

These credit commitments do not necessarily represent future cash requirements, since many of these commitments will expire or terminate without being funded. Credit losses, if any, which may result from exposure to such commitments are not expected to be significant.

The Group has commitments in respect of capital expenditure amounting to KD 48,998 thousand (31 December 2017; KD 60,019 thousand, 30 June 2017; KD 94,310 thousand).

## NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL INFORMATION

30 June 2018 (Unaudited)

### 9 Impacts of IFRS 9 adoption (continued)

The adoption of IFRS 9 did not result in any change in the classification and measurement of loans, advances and islamic financing to customers. Loans, advances and islamic financing to customers are carried at amortised cost using effective interest method less any amounts written off and provision for impairment. The provision for impairment is based on the provisioning requirements of Central Bank of Kuwait.

The following table reconciles the closing impairment allowances for financial assets other than loans, advances and islamic financing to customers determined in accordance with IAS 39 as at 31 December 2017 to the opening ECL allowances determined in accordance with IFRS 9 as at 1 January 2018.

	Impairment		Expected credit
	allowances under		losses under IFRS
	IAS 39 at		9 at
	31 December 2017	Remeasurement	1 January 2018
	KD 000's	KD 000's	KD 000's
Debt investment securities measured at amortised cost	::::	26,134	26,134
Debt investment securities measured at FVOCI	-	7,072	7,072
Other financial assets measured at amortised cost	350	983	983
Total expected credit losses		34,189	34,189

The ECL charge for the period ended 30 June 2018 is not material and is included in other impairment losses in the interim condensed consolidated statement of income.

The following table analyses the impact on transition to IFRS 9 to reserves and retained earnings.

### NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL

### INFORMATION

30 June 2018 (Unaudited)

### 10 Fair value of financial instruments

The fair value of financial assets and financial liabilities that are traded in active markets are based on quoted market prices or dealer price quotations. For all other financial instruments the Group determines fair values using valuation techniques.

The Group measures fair values using the following fair value hierarchy, which reflects the significance of the inputs used in making the measurements:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included within Level 1 that are observable either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using quoted prices for identical or similar instruments in market that are considered less than active or other valuation techniques in which all significant inputs are observable from market data. Debt securities under this category mainly include sovereign debt instruments in the Middle East & North Africa (MENA) region.

Level 3: valuation techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

The following table provides the fair value measurement hierarchy of the Group's financial instruments recorded at fair value:

30 June 2018	Level 1 KD 000's	Level 2 KD 000's	Level 3 KD 000's	Total KD 000's

### 11 Derivative financial instruments

Derivative financial instruments are financial instruments that derive their value by referring to interest rates, foreign exchange rates, index of prices or rates and credit rating or credit index. Notional principal amounts merely represent amounts to which a rate or price is applied to determine the amounts of cash flows to be exchanged and do not represent the potential gain or loss associated with the market or credit risk of such instruments.

Derivative financial instruments are carried at fair value in the consolidated statement of financial position. Positive fair value represents the cost of replacing all transactions with a fair value in the Group's favour had the rights and obligations arising from that instrument been closed in an orderly market transaction at the reporting date. Credit risk in respect of derivative financial instruments is limited to the positive fair value of the instruments. Negative fair value represents the cost to the Group's counter parties of replacing all their transactions with the Group.

The Group deals in interest rate swaps to manage its interest rate risk on interest bearing assets and liabilities and to provide interest rate risk management solutions to customers. Similarly the Group deals in forward foreign exchange contracts for customers and to manage its foreign currency positions and cash flows.

## NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL INFORMATION

30 June 2018 (Unaudited)

### 11 Derivative financial instruments (continued)

Interest rate swaps used to hedge the change in fair value of the Group's financial assets and liabilities and which qualifies as effective hedging instruments are disclosed as 'held as fair value hedges'. Other interest rate swaps and forward foreign exchange contracts are carried out for customers or used for hedging purpose but do not meet the qualifying criteria for hedge accounting. The risk exposures on account of derivative financial instruments for customers are covered by entering into opposite transactions (back to back) with counter parties or by other risk mitigating transactions.

### Interest rate swaps

Interest rate swaps are contractual agreements between two counter-parties to exchange interest payments on a defined principal amount for a fixed period of time. In cross currency interest rate swaps, the Group exchanges interest payment in two different currencies on a defined principal amount for a fixed period of time and also exchanges defined principal amounts in two different currencies at inception of the contract and re-exchanges principal amounts on maturity.

### Forward foreign exchange

Forward foreign exchange contracts are agreements to buy or sell currencies at a specified rate and at a future date.

The fair value of derivative financial instruments included in the financial records, together with their notional amounts is summarised as follows:

	3	0 June 2018	8	Audite	d 31 Decemb	per 2017	3	0 June 2017	
	Positive fair value KD 000's	Negative fair value KD 000's	Notional KD 000's	Positive fair value KD 000's	Negative fair value KD 000's	Notional KD 000's	Positive fair value KD 000's	Negative fair value KD 000's	Notional KD 000's
Interest rate swaps (held as fair value									
hedges) Interest rate swaps	51,447	30,239	2,195,428	20,989	37,845	1,947,427	14,641	37,769	1,933,433
(others) Forward foreign	651	624	88,733	962	926	91,050	1,360	1,318	86,552
exchange contracts	24,518	8,327	2,718,884	5,729	15,352	2,171,714	8,761	17,527	1,785,470
	76,616	39,190	5,003,045	27,680	54,123	4,210,191	24,762	56,614	3,805,455

The net fair value of interest rate swaps held as fair value hedges as at 30 June 2018 is positive KD 21,208 thousand (31 December 2017: negative KD 16,856 thousand, 30 June 2017: negative KD 23,128 thousand). Loss on the hedged fixed income financial assets amounted to KD 6,552 thousand (31 December 2017: gain of KD 41,534 thousand, 30 June 2017: gain of KD 44,887 thousand).

# 12 Related party transactions

Related parties comprise Board Members and Executive Officers of the Bank, their close family members, companies controlled by them or close family members and associates of the Group. Certain related parties were customers of the Group in the ordinary course of business. Transactions with related parties were made on substantially the same terms, including interest rates and collateral, as those prevailing at the same time for comparable transactions with unrelated parties and did not involve more than a normal amount of risk. Lending to Board Members and their related parties is secured by tangible collateral in accordance with regulations of Central Bank of Kuwait.

Details of the interests of related parties are as follows:
