REPORT ON REVIEW OF INTERIM CONDENSED CONSOLIDATED FINANCIAL INFORMATION TO THE BOARD OF DIRECTORS OF NATIONAL BANK OF KUWAIT S.A.K.P.

Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of National Bank of Kuwait S.A.K.P. (the “Bank”) and its subsidiaries (collectively the “Group”) as at 30 September 2023, and the related interim condensed consolidated statement of income and the interim condensed consolidated statement of comprehensive income for the three month and nine month periods then ended, and the interim condensed consolidated statement of changes in equity and the interim condensed consolidated statement of cash flows for the nine months period then ended. The management of the Bank is responsible for the preparation and presentation of this interim condensed consolidated financial information in accordance with the basis of preparation set out in Note 2. Our responsibility is to express a conclusion on this interim condensed consolidated financial information based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, “*Review of Interim Financial Information Performed by the Independent Auditor of the Entity*”. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

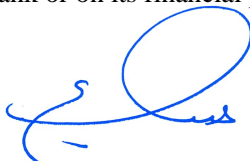

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial information is not prepared, in all material respects, in accordance with the basis of preparation set out in Note 2.

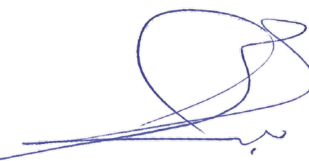

Report on Other Legal and Regulatory Requirements

Furthermore, based on our review, the interim condensed consolidated financial information is in agreement with the books of account of the Bank. We further report that, to the best of our knowledge and belief, we have not become aware of any violations of the Companies Law No. 1 of 2016, as amended, and its executive regulation, as amended, or of the Bank’s Articles of Association and Memorandum of Incorporation, as amended, during the nine months period ended 30 September 2023 that might have had a material effect on the business of the Bank or on its financial position.

We further report that, during the course of our review, to the best of our knowledge and belief, we have not become aware of any violations of the provisions of Law No. 32 of 1968, as amended, concerning currency, the Central Bank of Kuwait and the organization of banking business, and its related regulations, during the nine months period ended 30 September 2023 that might have had a material effect on the business of the Bank or on its financial position.

In the normal course of business, the Group has exposure to various indirect credit commitments which, though not reflected in the interim condensed consolidated statement of financial position, are subject to normal credit standards, financial controls and monitoring procedures.

These credit commitments do not necessarily represent future cash requirements, since many of these commitments will expire or terminate without being funded. Credit losses, if any, which may result from exposure to such commitments are not expected to be significant.

The Group has commitments in respect of capital expenditure amounting to KD 91,848 thousand (31 December 2022: KD 82,124 thousand, 30 September 2022: KD 86,839 thousand).

11 FAIR VALUE OF FINANCIAL INSTRUMENTS

The fair value of financial assets and financial liabilities that are traded in active markets are based on quoted market prices or dealer price quotations. For all other financial instruments the Group determines fair values using valuation techniques.

The Group measures fair values using the following fair value hierarchy, which reflects the significance of the inputs used in making the measurements:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included within Level 1 that are observable either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using quoted prices for identical or similar instruments in market that are considered less than active or other valuation techniques in which all significant inputs are observable from market data. Debt securities under this category mainly include sovereign debt instruments in the Middle East & North Africa (MENA) region.

Level 3: valuation techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

The valuation techniques and inputs used in this interim condensed consolidated financial information are same as those disclosed in the annual consolidated financial statements for the year ended 31 December 2022.

12 DERIVATIVE FINANCIAL INSTRUMENTS

Derivative financial instruments are financial instruments that derive their value by referring to interest rates, foreign exchange rates, index of prices or rates and credit rating or credit index. Notional principal amounts merely represent amounts to which a rate or price is applied to determine the amounts of cash flows to be exchanged and do not represent the potential gain or loss associated with the market or credit risk of such instruments.

Derivative financial instruments are carried at fair value in the interim condensed consolidated statement of financial position. Positive fair value represents the cost of replacing all transactions with a fair value in the Group's favour had the rights and obligations arising from that instrument been closed in an orderly market transaction at the reporting date. Credit risk in respect of derivative financial instruments is limited to the positive fair value of the instruments. Negative fair value represents the cost to the Group's counter parties of replacing all their transactions with the Group.

The Group deals in interest rate swaps to manage its interest rate risk on interest bearing assets and liabilities and to provide interest rate risk management solutions to customers. Similarly the Group deals in forward foreign exchange contracts for customers and to manage its foreign currency positions and cash flows.

12 DERIVATIVE FINANCIAL INSTRUMENTS (continued)

Interest rate swaps used to hedge the change in fair value of the Group's financial assets and liabilities and which qualifies as effective hedging instruments are disclosed as 'held as fair value hedges'. Other interest rate swaps and forward foreign exchange contracts are carried out for customers or used for hedging purpose but do not meet the qualifying criteria for hedge accounting. The risk exposures on account of derivative financial instruments for customers are covered by entering into opposite transactions (back to back) with counter parties or by other risk mitigating transactions.

Interest rate swaps

Interest rate swaps are contractual agreements between two counter-parties to exchange interest payments on a defined principal amount for a fixed period of time. In cross currency interest rate swaps, the Group exchanges interest payment in two different currencies on a defined principal amount for a fixed period of time and also exchanges defined principal amounts in two different currencies at inception of the contract and re-exchanges principal amounts on maturity.

Forward foreign exchange

Forward foreign exchange contracts are agreements to buy or sell currencies at a specified rate and at a future date.
